

# Globulin

## Synonyms

## Clinical Indication

Investigation of protein abnormalities

## Part of Profile / See Also

LFT, Bone

## Request Form

Combined Pathology manual blood request form or ICE request

## Availability / Frequency of Analysis

On request.

Not measured directly.

Calculation: Total protein-Albumin = Globulin g/L

## Turnaround Time

Same day

## Patient Preparation

## Sample Requirements

### Specimen Type

### Volume

### Container

## Reference Range & Units

20 - 35 g/L

If globulin level is raised and there is no history of previous investigation, serum electrophoresis will automatically be performed by the laboratory

## Interferences

## Interpretation & Clinical

## Decision Value (if applicable)

## References

## Test code

L (part of LFT Profile) or BONE (part of bone profile)

## Lab Handling

Analysed from the primary tube and stored at 4°C
