

**CELLULAR PATHOLOGY  
CENTRES OF REFERRAL FOR SECOND OPINION**

Q-Pulse No	PGM56
Version	4
Site	MPH/YDH

**PURPOSE**

The laboratory sometimes needs to refer samples for second opinions. This list provides the details of the main sources of second opinions for common tissue types. However this list is not exhaustive and the lead Histopathologist will, after consulting with local colleagues, make a referral for a second opinion based upon:

- GMC registration
- Evidence of specialism
- Personal knowledge and relationship with second opinion provider
